WALTER AND HIS GHOSTS!

Is the Dark Valley railway line haunted? According to Walter Potts, the guard who travels the line, it is!

Walter claims that every 15th June he has witnessed ghosts along the track. He told Westshire News that on the outward run a ghost appears as the train enters Grimley Tunnel (on right of the tunnel) and as it approaches Mosfield station (sitting on the footbridge!)

On the return journey says Walter a ghost can be seen as the train crosses the viaduct (on left) and as it nears Bleakwood station (to the right of the track!)
